

BRAIN BUS

Statewide Mobile Outreach Initiative

The Alzheimer's Association Brain Bus is here to help. This statewide outreach raises awareness about Alzheimer's disease and related dementias. It also addresses the benefits of early detection, early diagnosis, brain health, and risk reduction. With two mobile units, the Brain Bus is able to travel throughout Florida with a focus on underserved communities that may have less direct access to healthcare.

In 2020, following the COVID-19 pandemic, the Alzheimer's Association was able to expand the Brain Bus program to now include a virtual program component from any computer, tablet or smartphone connected to the internet. Programs are available in English or Spanish.
